New Firm to Place Trucks on Road And Place Goods in Country Around

On March 15 the Blagg-Martin Products Co., a wholesale firm for the manufacture of potato chips and salted nuts will open for business in the Sawyers building on the corner of Main and Sixth streets. June Blagg, Don Martin and F. P. Reuillard are the parties involved in the new business.

The new firm will manufacture Butter Krisp potato chips and B. and M. fresh salted nuts. A slogan, "They are different" will be printed on all of the cartons and packages going out from the place.

The office of the Blagg-Martin Co. will be on the lower floor of the building and the plant proper will be on the second floor. In this plant everything will be run in the most up-to-date manner. A motor power peeler, slicer and cooking vat have already arrived in Maryville and the other machinery will be here in time to be installed before the fifteenth of the month.

Everything will be clean and sanitary. The products will all be handled by machinery and will not be touched by the hands. The Butter Krisp chips will be marketed in glassine bags that will keep them from dust and dirt and will also insure freshness.

Mr. Reuillard said today that trucks would be placed on the road and the products will be sold throughout all the adjoining country. The business will be strictly wholesale and the company will deal with the retail trade alone.

A professional cooker will be employed to superintend the making of the potato chips and the other products will be handled by competent employees.

The members of the new firm assure the public that only the highest grade of merchandise will be used in their products and that above all they will be sanitary.

The public is invited at any time to inspect the Blagg-Martin Co. Both of these young men said today that anyone was privileged and invited at any time to inspect the whole plant.

FIRST FIRE DRILL AT THE HIGH SCHOOL

The first fire drill during this school year was held at the high school this morning. Fire drills were held several times last year. Superintendent Ziegler thought that it was about time to start them this year and be prepared in case of fire. The school at King City was recently burned. If fire drills are practiced, the students will know what to do in case a fire should break out, and in this way a serious calamity would be avoided. The drills will be held as often as seems necessary.

FARM LOANS TODAY TOTAL 2 MILLION

MARCH 1 BUSINESS HEAVIEST IN HISTORY

MANY FARMERS MOVING

Movers Are Seen On All Highways—Rentable Farms and Town Property Scarce

Over $2,000,000 changed hands in Maryville today, it was estimated by farm loan men here. It was as busy a time as has been experienced here in this business, it was stated.

Some of the papers in these deals were made out a few days ago but were dated as of today.

Many of the loans were renewals and while a number were loans which were changed from a higher rate of interest to a lower rate of interest. A few weeks ago five per cent money was quoted. Many of these loans have been made within the past few days, but are effective from today.

Several farms also changed hands today.

Anyone travelling on the country roads the last day or two might think it is "cheaper to move than pay rent" judging by the number of farmers moving for the first of March. One autoist going to St. Joseph yesterday said it looked as if everyone in the county were moving. He said almost every hill he would go over he would meet trucks and moving wagons. During the past month there has been many closing out sales of farmers, who are moving.

Quite a number of changes of address is reported in Maryville for the first of this month. There seems to be a great scarcity of rentable houses in Maryville. Farms to rent on a grain basis also seem to be scarce. Inquiries, as checked up by Democrat-Forum want ads show many farm renters looking for a location for the coming year.

Keck, well known arbitrator, will umpire the game which will start at 8 o'clock and will last until the basketball teams are ready for the floor or until the business men wear out.

FEBRUARY WAS DRY AND WARM

BRINK REGISTERS MILD WEATHER AND MEAGER MOISTURE.

A LAMB-LIKE MARCH 1

But A Lion-Leaving Is Possible—High Feb. Temperature Was 58, Lowest Was 7 Below.

Dry weather, which prevailed in December and January, continued through the month of February and there has been only three-fourths of an inch of precipitation in Maryville since November 13. This is less than ever before registered here in the corresponding period, according to J. R. Brink, weather observer.

The temperature for February ranged from a minimum of 7 below zero to a maximum of 58, the mean temperature being 27 or 3.7 degrees above normal. The mean temperature for the twenty-eight years the weather records have been kept is 23.3.

The highest temperature was 58 on February 24. The lowest was 7 below zero on February 3. The highest for February during the twenty-eight years was 74 on February 21, 1922, and the lowest was 28 below zero on February 12, 1899.

The precipitation the last month was .22 of an inch. The lowest for any February was .07 of an inch in 1910 and the highest was 4.22 in 1911. The mean precipitation for the twenty-eight years was 1.5 inches.

The precipitation for the year 1922 was 44.25 inches as compared to 27.06 inches in 1921. The highest rainfall year was in 1915 when it amounted to 57.61 inches and the lowest was in 1910 when it amounted to 22.05 inches. The average rainfall for the twenty-eight years period is 36.77.

For the year 1922 the precipitation by months follows:

January .66 of an inch; February 1.26 inches; March 3.28 inches; April 2.40 inches; May 4.63 inches; June 2.06 inches; July 15.21 inches; August 2.30 inches; September 4.86 inches; October 2.46 inches; November 4.91 inches and December .22 of an inch.

March unquestionably entered like a lamb this morning. The sun rose early, advance guards of birds were chirping and the thermometer was above forty. Indications point to fair weather and mild temperature for the immediate future. Will it leave like a lion, is the question some people are already asking.

Temperatures yesterday ranged from 37 to 46 degrees here and the only precipitation registered was a light snowfall in the lake region and in the New England states.

Mild temperature prevailed over the plains states with readings above 50 degrees in Oklahoma, Kansas and Nebraska. A number of stations reported 58, and 54 was reported in Montana. To the east the temperatures were moderate, but not so high. Toledo reported 40 degrees, Pittsburgh 36 and Boston 34. In the south Fort Worth, Texas, reported a maximum of 60 degrees and Los Angeles 76.

Explosive in Old Rubbish Being Burned Explodes—Mrs. Jones Receives Powder Burns

Mrs. Charles Jones of Quitman received painful injuries yesterday afternoon about 3:30 o'clock when burning an accumulation of papers and letters in a stove. The accident occurred at the farm of Mrs. Jones' father, the late Sheridan Graves, west of Quitman, where she and her sister, Mrs. John Knisley, and others had gone to clean up the house preparatory to holding a closing out sale. It is supposed that there was dynamite among the papers and when it exploded Mrs. Jones was standing directly in front of the stove, the door of which was open. Her injuries consisted of powder burns to the depth of half an inch on the leg between the knee and ankle and on one hand. Mrs. Knisley, who was near the stove at the time of the explosion, received minor bruises.

PERJURY CHARGE AGAINST JOHNSON

IS MARYVILLE MAN, WHO TESTIFIED IN STEWART TRIAL

LEFT MARYVILLE TODAY

Unknown Whether Or Not He Knew Of Warrant—May Be Tried in St. Joseph

St. Joseph, March 1—A warrant ordering the arrest of Albert Johnson, Maryville farmer, and defense witness in the trial of W. E. Stewart, millionaire land man at Kansas City recently, was received at the Deputy United States Marshall's office today.

The warrant asking for the arrest, was signed by C. C. Madison, U. S. district attorney of Kansas City, and was sworn to by V. C. Battie, post office inspector. Mr. Johnson is accused of having perjured himself in the testimony of the land trial in Stewart's behalf. He testified on the witness stand that he was owner of twenty-five acres of "magic valley" land in Texas, and that it was unusually productive, and that he had always raised good crops. He added that he had never been in the employ of the Stewart Land Co.

T. C. King, another witness, testified that at present he holds the deed to the land that Johnson claimed he owned. He refuted the testimony of Johnson and claimed that he (King) bought the land of Johnson in 1920. He further testified that both had been Stewart land agents.

"I went to the office of R. R. Brewster, Stewart's counsel, before Johnson took the witness stand and told him that I was owner of the land," was a sworn statement of King.

Johnson will be taken to St. Joseph where he will be arraigned, it was said. It is believed that his trial will be held here instead of Kansas City.

An effort was made by the Democrat-Forum to get in touch with Mr. Johnson today to get a statement from him in regard to the issued warrant. However he was not to be located and it was said at Jim Greenlee's, where he has been rooming, that he left for St. Joseph at noon today. Whether or not Johnson knew of the perjury actions against him before leaving, is not known.

He has worked for some time for the Peet Bros. Stock Food Co., at Council Bluffs. It is said here that he had formerly worked for the Stewart Land Co. Johnson came to Maryville from Shenandoah, Ia.

BOURKE COCHRAN, WELL-KNOWN CONGRESSMAN, DIES

Picturesque New Yorker Was Known At Washington and Over Country For Oratory

Washington, March 1—W. Bourke Cockran, veteran Democratic congressman from New York and one of the most famous orators of the country, died at his home here this morning following an illness of only a few hours.

He became ill last night following a stroke of apoplexy and death soon followed. Cockran was 69 years old.

News of his death came as a profound shock to the Capital, for few had a greater host of friends than this picturesque New Yorker. Not only in Washington and New York, but all over the country he was noted for his oratory and vigor upon public and political questions. News of his death was received with sorrow from both his political friends and foes. He had been a conspicuous figure in the political life of America for the past half century. Cochran was a native of Ireland, coming to the United States in 1871, fresh from school in his native land, a lad of 17 years. He was too young to be admitted to the bar, but upon reaching his majority was admitted and practiced law in New York. At 27 he was a delegate to a Democratic state convention and from that point on he was a conspicuous and brilliant figure in every political convention, not only in his state but in national politics.

Mrs. Cochran was prostrated with grief, when she learned of her husbands death and is under the doctor's care. She was formerly Miss Anna Ide, and married Representative Cochran in 1906.

EXEMPT FOREIGN CAPITAL

Plan to Exclude It From Income Tax Till 1925—Mussolini's Achievements Amazing

Rome, March 1—Drastic financial reforms are being made by the Fascisti government of Italy to encourage private enterprise and to attract foreign capital, and to reduce taxes. In an exclusive statement today to the International News Service Monsignor Desteffani outlined the government's plan as follows:

"The government does not want to contract any more of a loan on the state. It is our aim to reduce outstanding debts. We wish to encourage foreign capital and to increase employment. In order to attract capital from outside, it is proposed to make it exempt from income taxes until 1925.

"Thebulk of the credit for the new financial plans goes to Premier Mussolini, the indomitable Fascisti leader, who has dedicated his life to the reconstruction of Italy. PROSAIC REASON FOR SERVICE

Could It Be Possible the Preacher Was Giving the Deacon a Delicate Hint?

The Midville church had a new preacher, and Deacon Sturgeon was entertaining him at Sunday dinner. At least that was the way the Weekly Blade would report the occasion, but, as a matter of fact, the deacon was feeding the preacher at Sunday dinner, while as for entertainment, the preacher was entertaining the deacon.

"And so you saw service in the great European war?" the deacon asked.

"Yes, I served nearly two years as chaplain," the preacher replied.

"Get across?"

"Oh, yes. I was in France nearly a year."

"Well, I don't believe in war," the deacon declared. "But I suppose you heard the call of duty and couldn't hold back."

"Well, I can't say that was it altogether," the preacher answered. "There were several other things to be considered."

"For instance?" demanded the deacon, who did not shy at questioning.

"Well," and the preacher smiled quietly, "I went into the army for one thing, because I got my pay regularly!"

Mary Anderson Lauds Booth.

A portrait of Edwin Booth, by many considered America's greatest tragedian, was presented lately to the Memorial Art gallery in the Shakespeare memorial at Stratford-on-Avon by an American friend of the drama and his colleagues.

The most striking feature of the ceremony was the voice of Mme. de Navarro, once the idol of American dramatic audiences as Mary Anderson, says the New York Sun. Her personal reminiscences of Edwin Booth reached their climax in her recitation of an apostrophe in verse to the great actor.

A voice from out the past, indeed, and its magical effect upon the audience gathered at Stratford is ample testimony to the truth that the great backgrounds in art and human life are not blotted out by the intense preoccupation in things of the present which seem to fill the picture.

New Motion Picture Idea.

A motion picture projector which can be used by anybody, anywhere, making possible the projection of moving pictures under all conditions, is in use in France. The lantern and film reels of the projector are supported above an upright triangular frame, at right angles to which is a second triangular frame supporting a seat and a large pulley driven by pedals. Behind the large pulley is a dynamo which supplies current for a high-powered incandescent lamp. By means of belts the pedaled pulley operates the dynamo, the projector and the film reels all simultaneously.—Popular Science Magazine.

His Viewpoint.

"Father!"

The weeping girl pleaded piteously.

"Father! Why don't you let me marry George, and take him into the firm? Why, O why?"

The business man raised her head tenderly.

"I feel for you, darling," he said. "I do need George in my business—I could use him, and will, if he says the word, but daughter, I think I can hire him cheaper than I can support him."

And with a gesture of pitiless finality, he dropped the subject.—Richmond Times-Dispatch.

"Shocking."

"Waiter! Waiter!" shouted a young fellow, who for the last half hour had been wrestling with a steak, but failed to get his knife through it.

"Yes, sir!" said the waiter, coming forward.

"How do you cook your food in this place?" asked the young man.

"Well, sir, all our food is cooked by electricity," answered the waiter.

"Then—here," said the young man, "take this back and give it another 'shock.'"

A WOMAN'S BACK.

The Advice of This Maryville Woman Is of Certain Value.

Many a woman's back has many aches and pains.

Oftimes 'tis the kidney's fault.

That's why Doan's Kidney Pills are so effective.

Many Maryville women know this. Read what one has to say about it.

Mrs. J. W. Armstrong, 615 E. Second St., says: "Doan's Kidney Pills have been a household medicine in my family for years. My back and kidneys were in bad shape and sharp shooting pains often caught me in the small of my back and always left my back in a weak condition. My kidneys were irregular in action and I suffered dreadfully until I started to use Doan's Kidney Pills. A few boxes of Doan's brought me great relief. I am glad to recommend Doan's."

Jefferson City, March 1—Senator James F. LaFavor of Nodaway County has a bill providing for a presidential primary in Missouri, which he says he expects to introduce within the next several days.

"It's so late in the session now that I don't expect to get it through," said Senator LaFavor, "but I thought I'd introduce it and give the people a chance to digest the idea, and perhaps it can be enacted two years from now. The bill has the backing of organized labor. Men here representing railroad labor had it prepared and gave it to me."

Wonderful Results from Lydia E. Pinkham's Vegetable Compound

Beloit, Wis.—"My female trouble was brought on by overwork. I had worked in stores and had to do heavier work than my strength could stand, and had to be on my feet most of the time. Finally I had to give up this work entirely and stay at home. Doctor's medicine did not give me much relief, and my mother wanted me to take Lydia E. Pinkham's Vegetable Compound. I took a couple of bottles of it and thought it did not help me as much as it should, so I gave it up to try something else. Nothing I took helped me much, so I finally decided to give the Vegetable Compound another trial and to take enough of it to make sure it would help me. I have taken it over a year now and it has brought wonderful results. I have gained from 93 to 110 pounds and am keeping house now. My friends all notice the change in my health. I will be glad to answer all letters that women write to me about the Vegetable Compound."—Mrs. W. G. MONSON, 1515 Park Ave., Beloit, Wis.

Mother To-Be!

Do You Realize this Fact?

AN eminent physician has shown why there is so much useless suffering on the part of many expectant mothers, for months before baby comes, as well as when baby actually arrives. This same great doctor found the way to avoid much of this suffering. Mother, your baby's nerves, its whole structure should be free from any influence caused by your months of useless misery and pain. You yourself can be free from much of it. Here is a little message to all expectant mothers:

Mrs. Ida Milton, 108 N. Tremont St., Kansas, Ill., says: "I am forced to say something in regard to your wonderful 'Mother's Friend.' Just one application gave me such relief I could hardly realize I was in pregnancy. Before I used it I was suffering with pains all over, and today, I am able to do my house-work with all ease and without pain."

"Mother's Friend" is applied externally, and enables the muscles, nerves and tissues to relax and readjust themselves with the growing changes during pregnancy, and at child-birth. It should be used for some time before baby comes—the sooner the better.

"Mother's Friend" contains no narcotics or harmful drugs. It is safe. For three generations "Mother's Friend" has relieved expectant mothers of much useless suffering. Mother! you must avoid mere greases and useless substitutes. Begin using "Mother's Friend" today. It is sold at drug stores—everywhere.

Chickens

We have had many complaints lately that this ordinance is being violated. This is due warning to all, that said ordinance must be fully complied with.
